Three actions relative to establishing an Underground Utility District to be known and denominated as the Taylor Street Underground Utility District:
(Old San Diego Community Area. District-2.)

Subitem-A: (R-85-2419) ADOPTED AS RESOLUTION R-263773
Establishing an Underground Utility District to be known and denominated as the Taylor Street (Pacific Highway to Presidio Drive) Underground Utility District.

Subitem-B: (R-85-2420) ADOPTED AS RESOLUTION R-263774
Authorizing the expenditure of an amount not to exceed \$11,000 from CIP-37-028, Federal Revenue Sharing Fund 18013, for the purpose of administering the Taylor Street (Pacific Highway to Presidio Drive) Underground Utility District, minor City Force work and other related work.
Aud. Cert. 859124.

Subitem-C: (R-85-2461) ADOPTED AS RESOLUTION R-263775
Authorizing the use of City Forces, not to exceed \$7,500, for certain work related to the Taylor Street (Pacific Highway to Presidio Drive) Underground Utility District conversion of street lights and traffic signals.

CITY MANAGER REPORT: The proposed district will underground the overhead utility facilities on Taylor Street between Pacific Highway and Presidio Drive. This is a scheduled project in the CY '86 Capital Improvements Program. The formation of this district will require the affected property owners to

underground the portion of their utilities on their parcel prior to removal of the overhead utilities. The total number of affected properties in this district is 13, all of which are commercial or multi-family properties. A typical cost range for a licensed contractor to perform this conversion work on commercial private property is \$600 to several thousand dollars or more due to differences in service size and location. An existing overhead electric service to the City-owned Presidio Park and Recreation Center will require conversion at an estimated cost of \$4,000. This cost is due to the 150-foot length of the service trench, 90 feet of which will involve saw cutting through the existing paved parking area. A future resolution will establish the date for removal of overhead utilities as the undergrounding work approaches completion.
